**Наукові публікації професорсько-викладацького складу Національного університету
«Запорізька політехніка» в наукометричній базі даних SCOPUS за 2019 р.**

Бібліографічний покажчик літератури

Запоріжжя

2020

Наукові публікації професорсько-викладацького складу Національного університету «Запорізька політехніка» в наукометричній базі даних SCOPUS за 2019 р. : бібліографічний покажчик літератури / укладач І. О. Міщенко. – Запоріжжя : НБ НУ «ЗП», 2020 –36 с.

Науково-бібліографічний покажчик складено за матеріалами статей науковців Національного університету «Запорізька політехніка» в наукометричній базі даних Scopus англійською мовою за 2019 рік (151 назва).

Укладач І. О. Міщенко

Комп'ютерний набір І. О. Міщенко

Scopus— бібліографічна і реферативна база даних та інструмент для відстеження цитованості статей, опублікованих у наукових виданнях. Містить близько 50 млн. реферативних записів. У наукометричній базі даних проіндексовано понад 21 тис. назв наукових журналів, 5 тис. видавництв, 370 книжкових серій та 5,5 млн. праць конференцій. Scopus надає гіперпосилання на повні тексти матеріалів. Індексуються наукові джерела, що видаються різними мовами, за умови наявності у них англійських версій рефератів, з різним хронологічним охопленням. Найповажніші наукові часописи представлені архівами, починаючи з першого випуску першого тому. Також Scopus відстежує дані про цитування та розраховує різноманітні дослідницькі метрики. Scopus постійно перебуває на хвилі тенденцій, створює нові інструменти для своїх користувачів, має широкий функціонал профілю автора, публікує багато праць, активно розширює свою базу наукових журналів і статей та постійно влаштовує оновлення сервісу. Scopus зосереджений на тому, щоб висвітлювати великий діапазон наукових джерел. Наукометричний апарат Scopus забезпечує облік публікацій науковців і установ, у яких вони працюють, та статистику їх цитованості.

Бібліографічний показник охоплює авторські публікації за 2019 рік. При підготовці видання були використані матеріали наукометричної бази даних Scopus. Бібліографічні дані про документи представлені англійською мовою. Матеріали показника згруповані в хронологічному порядку, всередині кожного розділу – за алфавітом авторів, нумерація матеріалів наскрізна.

Метою запропонованого бібліографічного показника «Наукові публікації професорсько-викладацького складу Національного університету «Запорізька політехніка» в наукометричній базі даних SCOPUS за 2019 р.» є ознайомлення викладачів, аспірантів та студентів вищих навчальних закладів з публікаційною активністю науковців університету в наукових фахових виданнях, які індексуються в наукометричній базі даних Scopus.
